

## OVERVIEW OF VE-14, PART 2

Note: Spacecraft sequence activities were halted on March 26 (DOY 91-085) at 13:31:18 SCET by a B-String CDS Bus Reset, which resulted in spacecraft safing. Except for brief RBS sequences, the spacecraft was under real-time control until the start of EE-2' on Sept. 3, 1991 (DOY 246).
